

TAD AT-SF-200-K8 BALMAR KIT TO ADAPT TO CUMMINS 5.9 6BT

TAD AT-SF-200-K8 BALMAR KIT TO ADAPT TO CUMMINS 5.9 6BT

NOTES:

- 1.** This kit facilitates installation of a Balmar AT-SF-200-K8 alternator to fit a standard Cummins alternator bracket (Cummins part number 3923387 2" foot. If your engine has a different alternator bracket, you will need the following Cummins parts: (3923387 Alternator bracket) (2908226 Bolt) and (3910715 (Mounting Spacer). These parts available through TAD. You cannot fit the Balmar AT-SF-200-K8 alternator without a modification kit such as we are offering.
- 2.** Wiring and instructions are included with the purchase of a new AT-200 Alternator. If you feel this wiring task to be above your comfort level or skill, TAD recommends a qualified marine mechanic wire this alternator.
- 3.** All parts of this kit (aside from the alternator itself) are made from appropriate alloys of 18/8 stainless steel. Magnetic characteristics of some of these parts indicate they have been hardened and are not an indicator of the quality of the material.
- 4.** Full mounting instructions supplied with kit.
